¹ Total Housing Capacity reflects the University’s practice of honoring students’ requests for single-occupancy

² Rounded to the nearest percentage.

³ Decrease in occupancy and % of students residing on campus attributable to the change in the primary delivery mode of instruction to online courses in response to the COVID-19 pandemic, as well as social distancing measures resulting in dormitories being vacated by students. Further, 132 beds were set aside for the potential quarantine of students who reside in University housing facilities and test positive for COVID-19. For additional discussion of the impacts of COVID-19 on the Housing System, see the voluntary disclosures filed on EMMA on April 3, 2020, May 21, 2020, and September 30, 2020.
